

LISTENING/WRITTEN MEDIATION

You are going to listen to a radio programme on digital dementia. Summarise the main ideas to your friend. To help you take notes, you should follow the following outline:

- the speaker's opinion on the use of mobile phones
- the way certain people use their phones at the table
- two ways in which mobile phones affect our personal relationships

Listen to the recording TWICE. During the audition, make notes following the outline above. After the audition, taking your notes into account, summarize the radio programme you have just listened to.
